RE: Notification of Intent to Close  
La Cygne Generating Station Lower AQC Impoundment, KDHE Permit No. 0337  
Evergy Metro, Inc. (f/k/a Kansas City Power & Light Co.)

To Whom it May Concern:

Pursuant to 40 CFR 257.102(g) of the Coal Combustion Residuals (CCR) Rule, this will serve as notification of the Evergy Metro, Inc. intent to close the Lower AQC Impoundment at the La Cygne Generating Station. The unit will be closed by dewatering and installation of final capping in accordance with the current closure plan titled "CCR Closure Plan, Lower AQC Impoundment, La Cygne Generating Station", dated October 14, 2016, and/or any subsequent revisions, developed pursuant to 40 CFR 257.102(b). Evergy considers closure to be initiated under the CCR Rule as of the date of this notification.

Sincerely,

A handwritten signature in black ink that reads "Jared Morrison". The signature is written in a cursive, flowing style.

Jared Morrison  
Director, Water and Waste Programs
